SPECIALIZED CONSTRUCTION SERVICES

SERVICES

We provide specialised services regarding projects of infrastructure, industry, energy, commercial purposes and other building construction and repair projects.

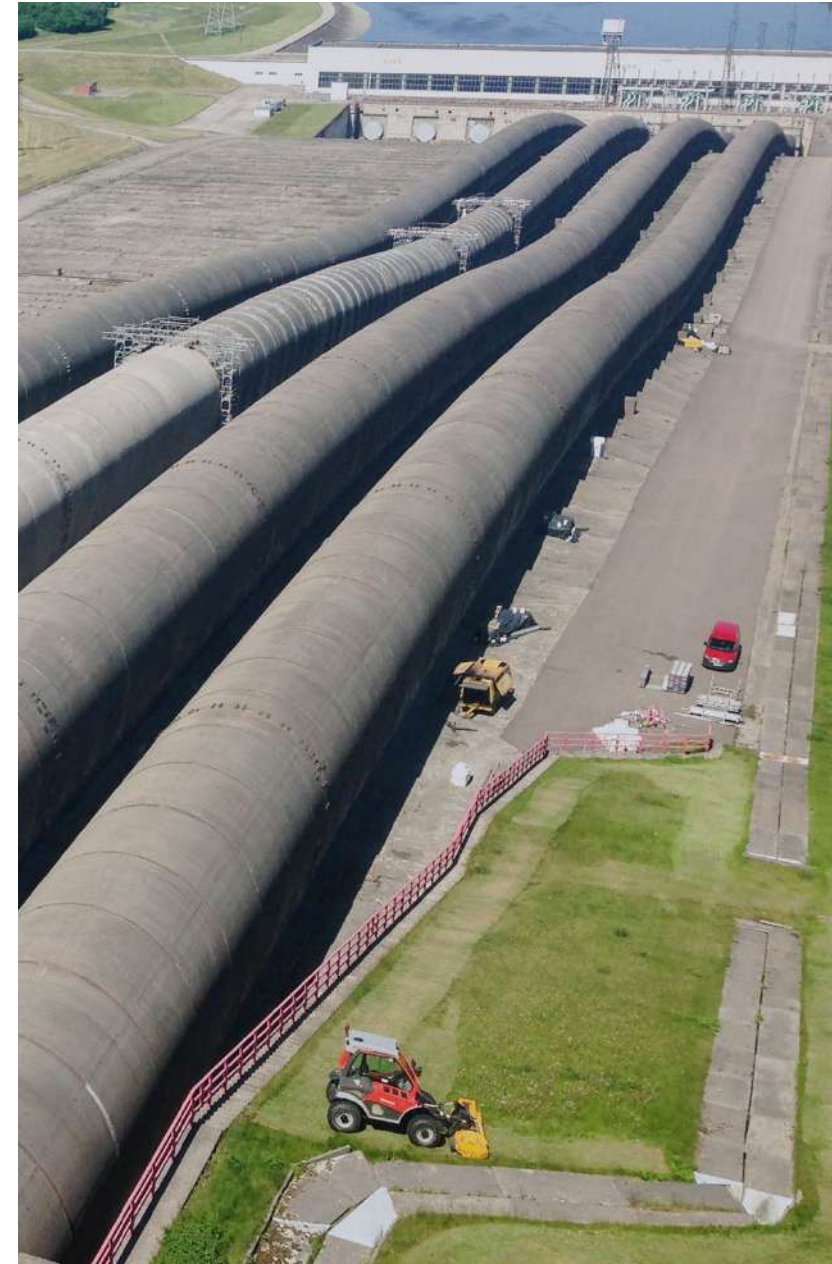

ANTI-CORROSIVE PROTECTION

- Abrasive blasting;
- Wet abrasive blasting;
- Shot blasting;
- High-pressure water cleaning;
- Anti-corrosive painting;
- Thermal coating (metallisation).

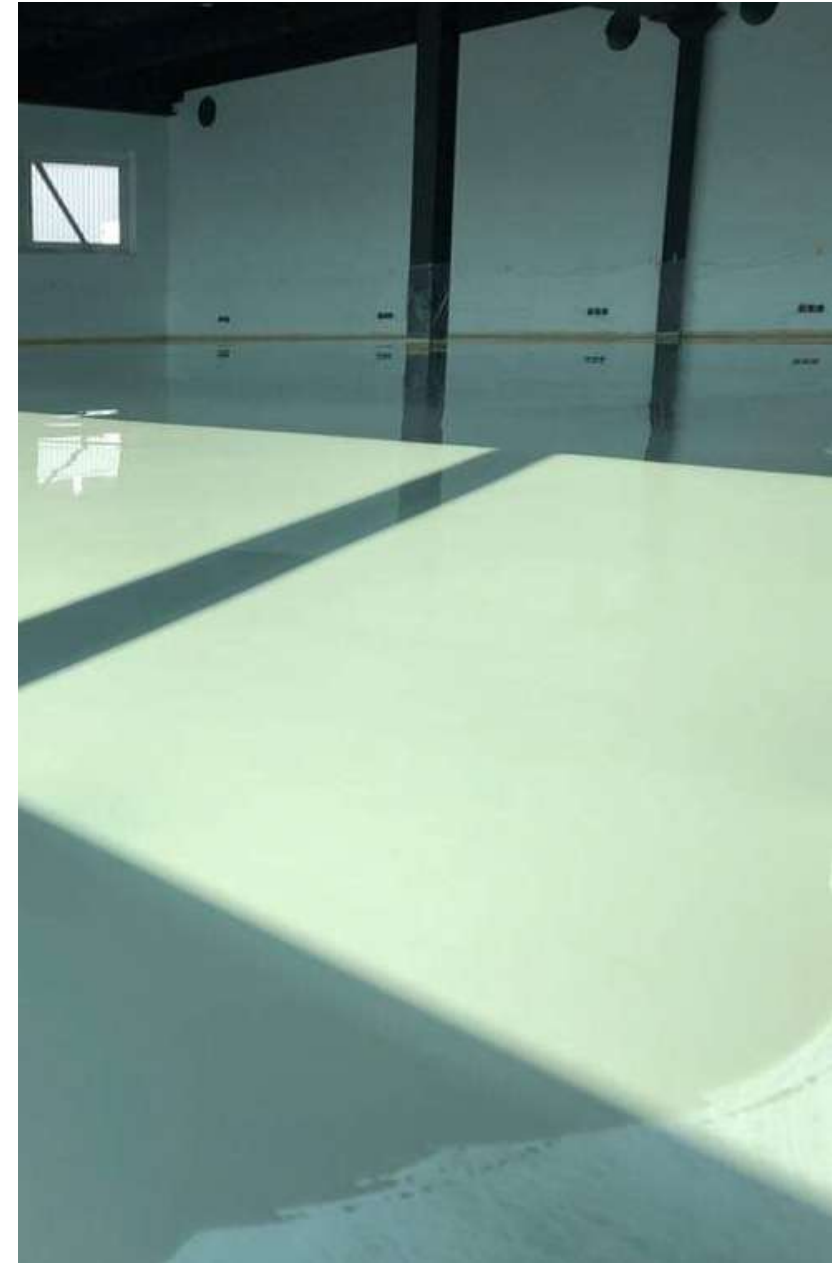

CONCRETE REPAIR AND PROTECTION

- Hydrophobic impregnation;
- Protective coating;
- Grouting of cracks, voids or splits;
- Reinforcement with stick-on panels and fibres;
- Spraying of concrete or mortar (spraying);
- Concrete reconstruction.

CASTING FLOORS COATINGS

- Dust-free surface cleaning (shot blasting)
- Floor surface repairs (cracks, breaks)
- Installation / repair of deformation and temperature seams
- Installation of epoxy and polyurethane coating
- Installation of antistatic coating

FIREPROOFING

- Intumescent painting;
- Coating with refractory mortar;
- Fireproofing with panels;
- Fireproofing of openings;
- Fireproof impregnation of wooden structures.

FIRE PROTECTION PRODUCTS AND INSTALLATION

- Fire doors and protection gates
- Fixed fire and smoke curtains
- Automatic fire and smoke curtains
- Aluminium profile fire windows and showcases
- Revision door and smoke removal manholes
- Fireproof sealing materials, fire resistant panels
- Fire retardant paint and mesh

FIRE SAFETY PROJECT PREPARATION AND ENGINEERING CALCULATIONS

- Consultations regarding fire safety;
- Fire safety project preparation;
- Optimisation of existing fire safety projects;
- Performance of calculations of fire safety parameters and other engineering calculations.

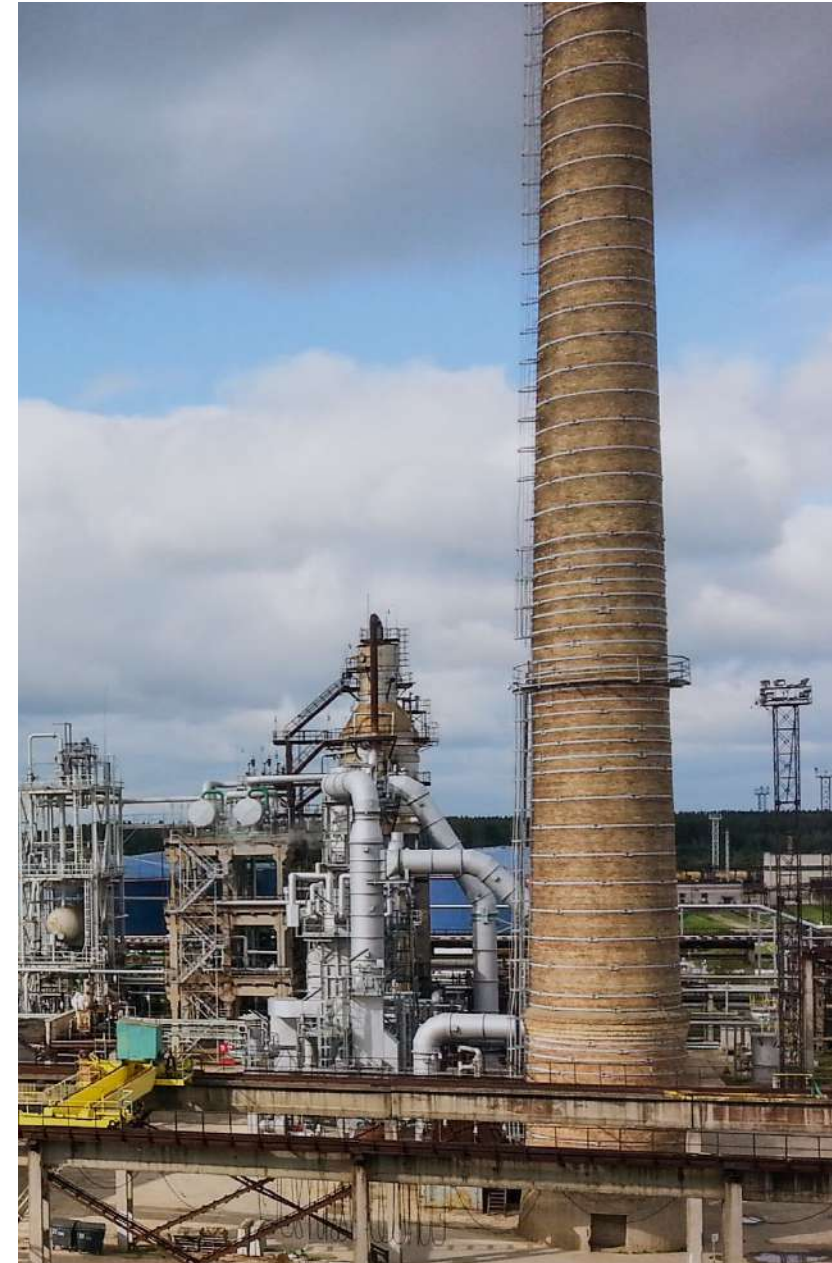

REFRACTORY WORKS

- Lining with fire bricks;
- Covering with fire retardant mixtures (spraying);
- Boiler and industrial ovens maintenance.

INDUSTRIAL CLEANING

- Heat exchanger cleaning;
- Boiler and furnace cleaning;
- Collection and utilisation of hazardous waste;
- Collection and utilisation of asbestos.

SUSTAINABLE DEVELOPMENT

High Quality and Professional
Innovative and Effective
Transparent and responsible

building**

3

**WE WORK
IN ALL
EUROPE**

„CLARION“ HOTEL, FINLAND

- Fire painting of steel structures
- Fire resistance class R60
- Top coating

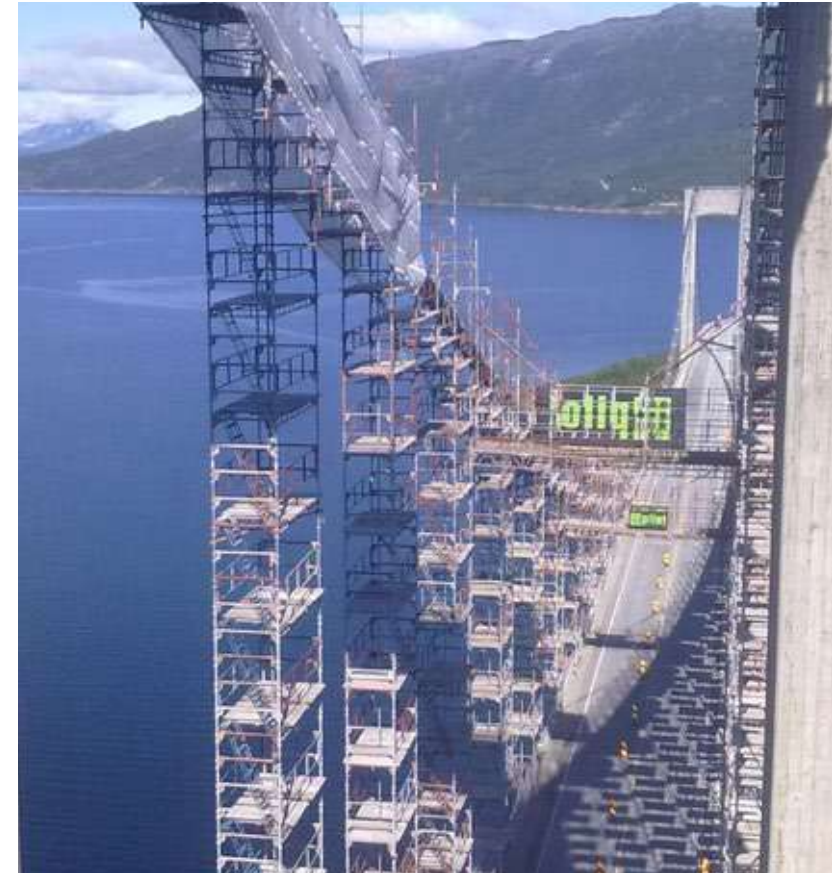

„KLAIPĖDOS NAFTA“ AB

- Slurry blasting and external protective coating
- 8 tanks over 18 000 m²

ROMBAK BRIDGE, NORWAY

- Water jetting
- Blast cleaning to Sa 3
- Spraying hot zinc (metallization)
- Coating steel surfaces and steel wire ropes

„KLAIPĖDOS VANDUO“ AB

- Blast cleaning;
- Concrete repair works

„MALSENA“ UAB

- Concrete repair works;
- Anti – corrosive painting of steel structures.

VILNIUS DRIVING SCHOOL

- Installation of slippery road surfaces.

ARV AUTO

- Installation of epoxy coating.

„TOKSIKA“ UAB

- Lining with fire bricks
 - Spraying fire retardant mixtures
 - New installation of rotary kiln
- refractory bricks – 10 meters long, 3 meters diameter

„SKANGAS“. LIQUEFIED GAS TERMINAL

- Fire proofing of steel structures with fire plaster

APARTMENT BUILDING BLOCK, VARBERG, SWEDEN

- Repair of facade reinforced concrete panels, facade painting.

LITHUANIAN RADIO AND TELEVISION CENTRE

- Repair of concrete tower outer surfaces.
Tower height 326 meters.
